EDUCATION

Bachelor of Engineering in Computer Science and Engineering
Visvesvaraya Technological University (VTU) | 2017

Diploma in Computer Science and Engineering, DTE
PA Polytechnic College | 2014

ACCREDITATIONS

- Python Programming from HackerRank | 2020

- Programming Foundations: Algorithms from LinkedIn Learning | 2020

- Cutshort certified Python Programmer | 2021

- Machine Learning (ML) and Deep Learning from Udemy | 2019

SOFT SKILLS

- Code Optimization
- Testing and debugging
- Database Management
- Data structures and algorithms
- Writing highly scalable code
- Collaboration & Communication Skills
- Stakeholder Management

ACHIEVEMENTS

- Presented YII2 framework workshops to international students.
- Developed ML and DL models using TensorFlow.

PERSONAL STATEMENT

Results-driven software professional with extensive experience of 5+ years both as a software developer and a technical lead. Demonstrated success in developing custom software solutions for customers, designing and developing full-stack web applications, and driving seamless integrations with Android and iOS platforms. Proven ability to collaborate effectively with cross-functional teams, leadership development, design, and project management teams to increase overall productivity by 40%. Proficient in a variety of programming languages and technologies, with expertise in Python, Django, PostgreSQL, React, and React Native. Adept at driving innovation and continuous improvement, resulting in revenue growth and increased profit margins for organizations. Experienced in project planning and management, technical leadership, and mentoring junior developers.

WORK EXPERIENCE

Limendo India, Bangalore as a Senior Software Developer   07/2022 - Present
- Collaborated with cross-functional teams, including leading development, design, and project management teams, resulting in a 40% increase in overall productivity.
- Designed and implemented efficient user interface components for React-based web and mobile applications, contributing to a 15% improvement in performance.
- Utilized Native APIs for seamless integrations with Android and IOS platforms, successfully reducing project costs by over 40%.

Financepeer (Leo1), Hyderabad as a Technology Lead   10/2021 - 03/2022
- Provided exceptional customer service and trained 4 new team members each month.
- Implemented a software-as-a-service platform for 6 B-B customers.
- Developed a UVA pre-paid credit card management application using Python, Django, PostgreSQL, React, and React Native.
- Designed and developed a React Native hybrid application that is utilized by over 1800 B-C customers, and 200 B-B customers.

Pacewisdom Solutions, Bangalore as a Software Engineer   08/2017 - 06/2021
- Developed custom software solutions for 12 customers and maintained software products, including programs, webpages, and databases.
- Designed and developed a full-stack web application to support new features and meet the needs of existing clients.
- Developed web applications for the logistic system, resulting in a 30% increase in profit.
- Revamped design tools and processes for web developers and designers, resulting in a 12% increase in annual revenue.
- Collaborated with a team of 8 developers for 21 months on a major website redesign.
- Managed the web application for a company in the medical industry, resulting in an 18% increase in annual subscriptions.

TECHNICAL SKILLS

Python, Django Framework, Flask, ReactJS, React Nave, PostgreSQL, PHP, Javascript, REST API, Agile, Redux, Celery, MySQL, GIT, YII2, Redis, High-level programming, Google Analytics, Payment Gateways, AWS (Basic), Asynchronous Programming.
